WORK EXPERIENCE

Infotact Solutions — AI/ML Intern

May 2025 – Jul 2025

- Built and evaluated machine learning models for real-time AI projects, handling data preprocessing, feature engineering, and model training/evaluation.
- Collaborated with a cross-functional team using Git-based workflows to deliver project milestones on schedule.
- Applied Python-based ML libraries to improve model accuracy and reliability across iterations.

PROJECTS

Stayora | Full-Stack Travel Listing Platform

Node.js, Express.js, MongoDB, Mongoose, EJS, Bootstrap, HTML, CSS

- Developed a full-stack, Airbnb-inspired travel listing platform with complete CRUD functionality for creating, viewing, updating, and deleting property listings.
- Built RESTful routes and integrated MongoDB with Mongoose for efficient data modeling, storage, and retrieval.
- Implemented dynamic server-side rendering using EJS for listing pages, property details, and create/edit forms.
- Designed a responsive and user-friendly interface using Bootstrap, HTML, and CSS.

AI Resume Analyzer

GitHub: <https://github.com/vaishnavkadam18/AI-Resume-Analyzer>

Python, Flask, spaCy, PDFMiner, HTML, CSS, JavaScript

- Developed a Flask-based AI Resume Analyzer that extracts text from PDF resumes and analyzes it against a given job description.
- Implemented NLP-based resume analysis using spaCy to identify relevant skills and keywords.
- Generated an ATS-style matching score to help users evaluate resume compatibility with job requirements.
- Redesigned and customized the frontend with a responsive and user-friendly interface for resume upload and analysis.
