PROFESSIONAL SUMMARY

Python Full Stack Developer with hands-on experience building responsive, production-style web applications using **React.js**, **Django**, and **Flask**. Skilled in designing **REST APIs**, implementing **JWT authentication**, and managing relational databases (**MySQL**, **PostgreSQL**). Built and shipped a full stack Job Portal with an AI-driven ATS Resume Analyzer, plus AI/ML applications spanning NLP chatbots, game engines, and machine translation. Strong grounding in OOP, MVC architecture, and Git-based collaborative workflows; quick to learn new tools and deliver scalable solutions.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript (ES6+), HTML5, CSS3, SQL
- **Frontend:** React.js, TypeScript, Tailwind CSS, Bootstrap, Vite, Responsive Design
- **Backend:** Django, Django REST Framework, Flask, REST API Design, JWT Authentication & Authorization, MVC Architecture
- **Databases:** MySQL, PostgreSQL, SQLite, Database Design, Query Optimization, CRUD Operations
- **Tools & Platforms:** Git, GitHub, VS Code, Render, npm, pip, Virtual Environments
- **Core Concepts:** OOP, REST APIs, Authentication Systems, Component-Based Architecture, Agile Collaboration

WORK EXPERIENCE

Infotact Solutions — AI/ML Intern

May 2025 – Jul 2025

- Built and evaluated machine learning models for real-time AI projects, handling data preprocessing, feature engineering, and model training/evaluation.
- Collaborated with a cross-functional team using Git-based workflows to deliver project milestones on schedule.
- Applied Python-based ML libraries to improve model accuracy and reliability across iterations.

PROJECTS

TalentFlow — Full Stack Job Portal & AI Resume Analyzer

React.js, TypeScript, Tailwind CSS, Python (Flask), MySQL, REST APIs, Git

- Engineered a full stack job portal enabling users to browse listings, view job details, and submit applications through a responsive React/TypeScript frontend.
- Built an AI-driven Resume Analyzer that scores resumes against ATS criteria, extracts key skills, and generates improvement suggestions.
- Designed backend architecture (Flask + MySQL) covering authentication, job management, resume uploads, and recruiter dashboards.
- Managed version control and collaborative development using Git/GitHub.

AI Friend — Multi-Feature AI Application Suite

Python, TensorFlow/PyTorch, NLTK, API Integrations

- Developed an AI-powered chatbot leveraging NLP techniques for natural, interactive conversations.
- Built a chess engine using the minimax algorithm with heuristic evaluation for automated decision-making.
- Implemented a machine learning-based language translator supporting multilingual communication.

EDUCATION

- Bachelor of Technology, Computer Science — DY Patil Technical Campus, Talsande (Shivaji University) | CGPA: 8.5/10 | 2022– 2026
- HSC — Sadhana Jr. College, Gadhinglaj | 75.5% | 2020 – 2022
- SSC — Uttur Vidyalaya, Uttur | 94.20% | 2019 – 2020

CERTIFICATIONS

- AI and Machine Learning Certification — Infotact Solutions
- Python Full Stack Development — Eduskill

ACHIEVEMENTS & EXTRACURRICULAR

- Awarded A+ grade in Intermediate Drawing Examination
- Participated in competitive coding competitions
